## EyeC relaunches its Italian website and strengthens its local presence

**Hamburg, September 10, 2019.** Pursuing its growth strategy, EyeC has recently relaunches its Italian website ([www.EyeC-Italia.com](http://www.EyeC-Italia.com)). There, familiar in look and feel, EyeC presents its comprehensive portfolio of artwork and print inspection systems, giving Italian companies the opportunity to easily learn more about the different applications and solutions provided by EyeC.

“The demand for state-of-the-art, integrated quality control solutions is gaining more and more momentum in Italy,” Andrea Corti, EyeC representative in Italy and CEO of Endeavor SRL, explains. “With our comprehensive product portfolio – including integration solutions for pre-press workflows, pharmaceutical and printing processes – we offer exactly what customers are looking for. To face the market growth, we have expanded our service team at the beginning of the year. To strengthen our presence, it is now time to refresh our website,” he concludes.

Since 2010, Endeavor SRL has been selling and commissioning EyeC inspection systems in Italy. With more than 80 installed quality control solutions, EyeC has established itself as one of the strongest inspection system suppliers to the pharmaceutical and printing industry in Italy.

The redesigned Italian EyeC website presents the extensive product portfolio with even more clarity.

### About EyeC

Founded in 2002 in Hamburg, Germany, EyeC is the market's only supplier to ensure the product quality throughout the entire printing process - from the first artwork file to the finished product. The product portfolio includes file-to-file comparison for artwork revision control and prepress applications, as well as print-to-file inspection systems for press sample testing and 100% print quality control of products such as folding cartons, labels, leaflets, or flexible packaging. The

market's most intelligent algorithms ensure that the systems show only relevant defects. With EyeC products, users avoid recalls, keep production costs and material waste in check and optimize their quality control. Worldwide, there are over 1,800 EyeC inspection systems in use by pharmaceutical companies, printers, and branded good manufacturers. The company currently has over 60 employees in Hamburg and has international sales partners in more than 20 countries.
