EyeC-America Earns ISO 9001:2015 Certification

Hamburg / SAINT CHARLES, September 22, 2026. EyeC-America, the U.S. partner of EyeC GmbH, has successfully obtained ISO 9001:2015 certification. This milestone underscores the company's commitment to excellence and continuous improvement, following the lead of its German headquarters, whose quality management system has been certified to this internationally recognized standard since 2011. For more information, visit [EyeC.com](https://www.eyec.com).

The certification validates EyeC-America's systematic focus on quality, efficiency, and ongoing improvement of its business processes. The certification process also served as an opportunity to review, refine, and strengthen internal workflows, establishing a solid foundation for long-term growth.

"From the start, our goal was never just the certificate itself, but rather about building a reliable framework to support our future growth," said Jürgen Klicker, President of EyeC-America. "What is now documented in our quality management system reflects how we actually work. That's what makes this certification so valuable to us: it doesn't just confirm a standard we meet; it has helped make EyeC-America a stronger, more effective company."

The successful certification reinforces EyeC's cross-location commitment to quality and lays a unified foundation for the company's continued international expansion.

About EyeC GmbH

Founded in 2002, EyeC GmbH provides fast, accurate, and easy-to-use artwork and print inspection systems. EyeC is the only provider on the market that ensures product quality throughout the entire manufacturing process – from the first artwork file to the finished printed product. Products from EyeC provide users with 100% confidence about the print quality of their products, such as labels, folding boxes, package inserts, or flexible packaging. As a result, complaints and recalls are minimized, production costs are lowered, and quality testing is optimized. Around the world, more than 3,000 EyeC inspection systems are currently used by pharmaceutical companies, printers, and manufacturers of branded goods. EyeC-America is part of EyeC GmbH's network of more than 100 international sales partners, collectively serving customers in over 100 countries.
