## **EyeC Expands OEM Growth: Rigel Gallegos Joins as Business Development Manager**

**Hamburg, Germany, October 12, 2026. EyeC GmbH is pleased to welcome Rigel Gallegos as its new Business Development Manager. With this appointment, EyeC adds a seasoned sales professional with deep technical expertise and industry experience in optics and sensor technology. In his new role, Gallegos will lead the strategic and operational development of EyeC's OEM and system integrator business. For more information, visit [EyeC.com](https://www.eyec.com).**

Rigel Gallegos brings extensive expertise from the optical and sensor industries. After earning a master's degree in mechatronics and an MBA in Technology Management at Hamburg University of Technology (TUHH), he began his career as a Service and Application Engineer in this field. He then spent several years as a Business Development Manager, focusing on sensor solutions for mobile and industrial machinery in an international environment.

At EyeC, he will combine his technical know-how with his business development experience to further expand collaboration with OEMs and international sales and integration partners. His responsibilities include analyzing current market trends and developing tailored sales strategies that support the pursuit of new business opportunities for EyeC. His primary focus will be on manufacturers of printing presses, rewinders, and folder gluers.

"With Rigel, we are gaining a proven expert who combines industry experience in optics and sensor technology with a strong technical and business background," said Markus Fietkau, Director of Sales at EyeC. "This combination is especially valuable when engaging with machine manufacturers and system integrators. It will help us deepen our partnerships and support our international sales partners on their projects even more effectively."

## About EyeC GmbH

Founded in 2002, EyeC GmbH provides fast, accurate, and easy-to-use artwork and print inspection systems. EyeC is the only provider on the market that ensures product quality throughout the entire manufacturing process – from the first artwork file to the finished printed product. Products from EyeC provide users with 100% confidence about the print quality of their products, such as labels, folding boxes, package inserts, or flexible packaging. As a result, complaints and recalls are minimized, production costs are lowered, and quality testing is optimized. Around the world, more than 3,800 EyeC inspection systems are currently used by pharmaceutical companies, printers, and manufacturers of branded goods. The company currently employs a team of around 70 employees in Hamburg and has a global sales network spanning more than 100 countries. More information via [EyeC.com](https://www.eyec.com).
